

Panasonic Network Camera Compatibility List

V2.10

July 24, 2015

IMPORTANT: The compatibilities documented here have not necessarily been verified by Panasonic. Information is based on written or verbal information received by Panasonic, or from publicly available sources. Prior to specifying, selling or buying any solutions or products, the actual functionalities required must be independently verified. Panasonic cannot be held responsible or liable for any inaccurate information contained within this document. Information subject to change without notice.

Note:

- 1) Virtually all current shipping models are currently supported by v5.5.38 and v6.0
- 2) Video Insight website listing of supported Panasonic models may not be current, contact Video Insight or Panasonic PSDN team with any questions
- 3) New models should function if added to Video-Insight as similar previously supported models. Video Insight does not validate actual model numbers, so new models should function.
- 4) Client dewarping for Panasonic 360 Cameras is supported
- 5) SFV781L initial integration and core functionality confirmed, but waiting on final MP firmware.

Planned Support:

- 1) WV-SPV781L, WV-SPN781L, WV-SFV531, WV-SFR531, WV-SFN531, WV-SW397, WV-SW397A, WV-SC387 support expected July 2015.
